Dear Chairman and Commissioners,

My name is Cristina Valencia and I am a customer of Arizona Public Service.

I am an architecture graduate student at Arizona State University and I strongly oppose the elimination the elimination of Arizona's Energy Efficiency Standards. I urge you to oppose this proposal because I believe that energy efficiency is important. These standards help to keep the cost of my utility bills down. It's also important for my family and neighbors to know about the importance of energy efficiency as they are also benefitting from lower utility rates.

I hope that you will do the right thing for Arizona and our state's economy. Please continue to support the previous Energy Efficiency Standards.

Sincerely,

Cristina Valencia
